SUMMARY

Enthusiastic Computer Science graduate specializing in frontend development, with expertise in creating responsive web designs using modern frontend technologies. Eager to apply my knowledge and collaborate within a dynamic team environment to deliver impactful web solutions.

PROJECTS

UniFinder | *React.js , Material UI , Firebase , React Libraries , Git*   URL

- Developed "UniFinder," a centralized platform to simplify university life with easy access to campus information.
- Implemented search, interactive maps, and detailed listings for efficient information access.
- Integrated Firebase backend for photo uploads, reviews, and user-suggested amenities.
- Ensured responsive design and scalability for reliable performance across multiple devices.

YouTube Clone | *React.js, Material UI, Rapid* Api, Redux, Firebase, Git   URL

- Integrated Firebase Authentication for secure user sign-up and login.
- Enabled users to browse, watch, and engage with videos across various categories.
- Utilized Fire store to manage video metadata, comments, and user profiles.
- Ensured cross-platform compatibility and responsive design for optimal performance on various devices.

WorldView | *React js, Material UI, APIs, Git*   URL

- Used separate APIs for fetching country data and news, showcasing proficiency in API integration.
- Implemented search, filtering, pagination which enhancing user experience and functionality.
- Developed a responsive interface using Material UI, ensuring the app looks great on all devices.

EXPERIENCE

Tek Navigators | Industrial Training on React Js   July 01,2023- Aug 15,2023

- Completed industrial training in React.js, mastering fundamental concepts under mentorship.
- Contributed to real-world projects, notably creating a World Web with React.js.

TECHNICAL SKILLS

Languages: C/C++, HTML, CSS, JavaScript
Libraries: C++ STL, React.js, Redux, Material UI, Tailwind CSS
Dev Tools: Visual Studio Code, Git, GitHub, IntelliJ
Backend: Firebase
Other: Context API, React Router DOM V6

EDUCATION

Bachelor of Technology in Computer Science and Engineering   *CGPA:8.9*

Integral University, Lucknow   Aug,2020 - July,2024

INTERESTS

- Exploring new programming languages and technologies.
- Contributing to open-source projects.
